## WORK EXPERIENCES

### Bestcomp Group | Junior Product Owner

December 2024 - Now

- Gathered customer and user requirements to create a clear and prioritized product backlog.
- Provided direction to the team by defining value-driven development priorities.
- Actively participated in Agile ceremonies such as sprint planning, daily scrums, sprint reviews, and retrospectives.
- Closely collaborated with UX/UI designers and developers to ensure the product is both user-friendly and technically robust.
- Maintained continuous communication with stakeholders to ensure alignment with business objectives.
- Made data-driven decisions to monitor product progress, based on KPIs, user feedback, and market research.
- Wrote user stories, defined acceptance criteria, and highlighted the most critical functionalities.
- Managed risks, facilitated effective implementation of changes, and contributed to continuous improvement.
- Oversaw the testing and delivery phases of new features, ensuring quality control throughout the process.
